

## Healthcare Beyond Reform: Doing It Right for Half the Cost

There is a secret inside healthcare, and its this: We can do healthcare for a lot less money. The only way to do that is to do it a lot better. We know its possible because it is happening now. In pockets and branches across healthcare, people are receiving better healthcare for a lot less. Some employers, states, tribes, and health systems are doing healthcare a little differently. Healthcare Beyond Reform: Doing It Right for Half the Cost explains how this new kind of healthcare is not about rationing and cutbacks. Its not about getting less, its about getting more. Getting better and friendlier healthcare, where you need it, when you need it. How? The answer is mostly not in Washington, its not conservative or liberal. The answer is mostly not about who pays for healthcare. The answer is mostly about who gets paid, and what we pay them for. Healthcare Beyond Reform: Doing It Right For Half The Cost shows you how the system works. It explains how we got here, why we pay so much more than anyone else, and why we dont get what we pay for. Youll learn the five things healthcare can do to turn this around. You will see what some employers are already doing to make that happen, and what patients, families, doctors, and anyone else who cares about healthcare can do to help make it happen. There are only five and we need all five. All of them can be done right now, with the current healthcare system as it is. Joe Flower shows you how. In 1980, healthcare took no more of a bite out of the U.S. economy than it did in other developed countries. By 2000, healthcare cost twice as much in the U.S. as in most other developed countries. We can change that. Joe Flower Joe Flower explains how we can make healthcare better for a lot less. <http://www.youtube.com/watch?v=nKv5SIS4Y&feature=youtu.be>
