

Once inseparable, twin Berserkers, Eryck and Erulf, have been growing apart as Eryck's magic continues to build. Teetering on the edge of an explosive realization, Eryck struggles with his emotions, especially when he dreams of Kharisma spending her nights in his arms. When one of those dreams turns into nightmare, his trust wavers. Yet the two have no choice but to trust her to lead them on a perilous journey. Kharisma knows she's a Berserker's mate and has been expecting the two brothers to eventually come claim her. But she refuses to be held to a destiny she hasn't chosen. Instead she wants to blaze her own path, as far from the brothers as possible. When she gets a taste of what life with them is like, she runs. Overwhelmed, she has to decide if fate had it right or not.
