

And a Chook Shall Lead Them

Amiri Campbell left New Zealand with his partner Graeme over a decade ago, and with good reason. He still carries the emotional scars of family abandonment, for all that Graeme tries to get him to reconcile. When Amiri's beloved Auntie Moana dies, Amiri and Graeme have no choice but to head back to New Zealand to deal with her estate. They only mean for it to be a brief visit, but family matters involving his niece and nephew might turn this brief stay into something longer and more permanent. Even though Amiri has Graeme's total support, does he have the strength to face his family? Even more, can he let go of the past enough to give his niece and nephew the home they both deserve? Previously published by Torquere Press as part of the Family Matters anthology.
