

## Call me Abigail

Francois Tanvier is growing up In the third decade of the 21st century when the legal system catches up with the needs of gender minorities. Francois is a boy with feminine tastes who benefits from this new enlightenment which allows boys to be feminine and express their femininity openly and without prejudice but circumstances shape lives as much as the way our minds and body work and Francois has to confront being manipulated by his mother rather faster than he is ready to accept and life intervenes in a violent way to change the path he is travelling. With the love and support of his best friend Becky he comes face to face with realities about who he really is and how he should dress in a world where the changes to the law dont necessarily meet with universal approval.
