

The History of Greece, from Its Conquest By the Crusaders to Its Conquest By the Turks, and of the Empire of Trebizond 1204-1461 (Classic Reprint)

This work is an attempt to fill up a vacancy in English literature. It may, perhaps, form a useful supplementary volume to the work of Gibbon, until something more worthy to be placed beside the writings of the great historian shall replace it. The author has found it impossible to follow rigidly any fixed system in the orthography of Greek names. Our best authorities do not agree in their mode of writing them. Had a fixed rule been generally adopted, it would have been conformed to in this work. The names of the emperors of Trebizond are always written in their Greek form, as a convenient mode of distinguishing them from the Byzantine sovereigns. Other names are given in their English, Latin, or semi-Greek form, as accident may appear to render most suitable. A desire to avoid both confusion and singularity, has made etymology yield to sound in one case, and given sound a preference over etymology in another. A then, June (Typographical errors above are due to OCR software and do not occur in the book.) About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology. Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
