

## Dealing with the Truth

I guess life has so many surprises we just cant keep up. Michelle, Diane, and Vivian met at work and became great friends. They worked hard to succeed at their jobs. For the most part, they were kept happy by their husbands who gave them everything they could to keep them happy. But, just as it was, they always wanted more. At least, Diane and Vivian did. They planned a vacation to have a chance of getting away from the same routine: raising children, husbands, and working their asses off to prove they have a real life. Damon, Adrian, and Graham are the devoted husbands, or so we want to believe. I guess they wanted something else also. These men were womanizers and they knew they could do what they wanted, because they always took care of home first, until things blew up in every bodies face.
