

I Am Superplacebo

In the book I AM Superplacebo, Ed Rychkun having learned how to probe deep into his subconscious through altered states encounters new and revealing thoughts from an entity he names Superplacebo. As he digs deeper into these foreign thoughts he learns he is in a conversation with Himself through the veil of forgetfulness. What unfolds is Ed learns that Superplacebo is a higher energy double centered in his heart and pineal mind. Join Ed as he documents this conversation with Himself to find answers to his puzzling questions; Are we eternal and why are we here? Is our reality a holographic illusion? Are we living in a grand immersion movie? Did we create and contract for our Life Plan? Why do miracles work only some of the time? How do placebos create dramatic healing miracles? What is the process most common in miracle healing? How can we proactively control our health and wealth reality? What is the physiological process of mind over matter? How do we attain super powers of mind? Who or what is Divine Intervention? How do we unlock the full potential of DNA? What is God? What is the New Age all about? Learn how the brain as directed by the subconscious mind is the CEO of our physical reality and how it evolves through stages of evolution to the age of 28. Learn how neurological processes open or limit the ability to proactively create new reality or default to old prevailing boxes of consciousness. In this book you will understand the statement as above, so below and how it works in the process of downward causation when You are your Heart Mind. This book will demystify the subtle energy bodies. It will present how the mind can select and energize visions from the quantum field of infinite possibilities then direct the subconscious and the brain to change neurological wiring to prepare for a new holographic reality. Understand clearly the key clinically

proven steps in reviewing life plans, past, present and future to attract and create internal health and external wealth miracles. Know the intricate relationship between the laws of Karma, Cause & Effect and Attraction.
