

Breath: Scottish Saga Book II: Triplets and Prophecies

Breath is the second in a two-book saga of Scotland and a Scots family in the fourteenth century, starting with the clan meeting and ode that seals the fate of a baby girl and, in this book, carries on with the story of the triplets born to Duncan and Catriona and the prophecy that started it all. While each of them has to endure trials and sorrows, the female of the trio seems to suffer most, and once again Caitlin is separated from her family and becomes intimate with death and the necessity to survive on her own life is but a breath and hers seems most likely to be taken from her. Time after time she is cut off from her family and left to survive on her own, and yet even among strangers, she is loving and loved. From Scotland to France and over the Alps, from the shores of the Mediterranean to the north of Norway, she endures, always seeking to return to her home and her family.
