

Seducing Brody MacKay

More than anything, Brody MacKay longs to regain the earldom stolen from him by his uncle, Colin, Lord MacKay. The abusive, drunken Colin taunts Brody, telling him that proof of his legitimacy--his parents marriage lines--can be found hidden in the castle. Brody also is attracted to Lorna, Colins young and beautiful wife. He wants her as much as he wants his title.

When Colin dies in a suspicious accident, Lorna, her father, and sister are faced with leaving Kirkmoor and going to her impoverished dower lands. When her father tries to force Rona, Lornas sister, into a loveless marriage, Lorna intervenes. An abused wife, she refuses to have Rona endure the same fate as she has suffered.

Lorna lies and tells her father she is expecting Colins child. She also says she needs Rona to be with her at this time. Her father relents, and she convinces him to go to Majorca for the winter. Before he leaves, he tells everyone about the pregnancy--much to Lornas consternation.

Brody is stunned by the news of the pregnancy and is determined to find his evidence. When Lorna finds him searching one night in the library, he tells her he is the real heir. Skeptical, she asks the village teacher, Seamus, who verifies Brodys story. Knowing Colins supposed heir is another despot, Lorna tries to convince Brody to impregnate her so the clan can have a kind heir, but she is determined never to marry again. She also gives Brody permission to continue searching for the document he needs to prove he is the rightful heir if he will get her pregnant .

Brody wants her more than ever when she confesses that she is still a virgin and tells him Colin was impotent. She promises he will see his child every day and will take part in the babes upbringing. But Brody knows he will never be able to claim his child or his earldom if he succumbs to Lornas charms.

Despite a series of murders that occur in the glen, and the

unrest among the neighboring clans, Lorna wont give up. She loves Brody and is not motivated by greed. She doesnt want the clan to suffer at the hands of another tyrant and plans a seduction that Brody finds difficult to refuse.
