

Let Him Fall In Love With You

Since the beginning of time, women have always wondered how to attract the men they admire. Too often, the tactics women are advised to use, tend to be at the cost of their dignity or the expense of their honesty. Author Svetlana Ermakova, now in her sixties and happily married for over thirty years, presents her own proven method, based on the main law of romance, which she learned in her early twenties and has practiced to great success ever since. In *Let Him Fall In Love With You*, the author reveals how you can implement the law through your behavior and dress. She also divulges three essential mood phrases that will help you embody the qualities necessary to become a radiant woman who is attractive not only to men but to everyone you meet. Part self-help, part memoir, this guide combines the candid experiences and the wise observations of a very perceptive woman who is passionate about helping other women find true love in a way that honors themselves. Discover today how you can be successful in love and finally achieve the life you've always wanted.
