

## The Mythology of Biblical Prophet Ezekiel

The Mythology of Biblical Ezekiel reports the known facts of history and Prophecy about the author. He will in a 5th year of the exile to King Conan to open his book at March 15/16, 592 BC. He is with captives or slaves at a River Chebar, and North of the River Euphrates and the City of Babylon. He reports seeing winged creatures, angels and visions of God; while to later interpret a forerunning idea of the temple and sanctuary of the Lord to be abandoned to apostasy. I have translated his book into extremely vain conditions, words and image. It is then read centuries later to provide Chapters about an image to be a vision of the mind. The phenomenon is considered the proper manner to describe the phenomenon of God, and to be otherwise word defying. I include a Chapter about ordeal to the association to evolve critical reasoning skills. The entirety of the Book of Ezekiel in all Chapters and verse are reviewed and/or interpreted. My volume has some 110 photo and artwork to be assembled in series. The opening portrayal are of a Temple of Doom; such as to again find a blood worship to be on going; while to so enslave and eat the children. The next series are from my own personal digital collection of my cat, Goddess Beatrice. She is found to read or portray in several photo the Bible, and to offer extraordinary creativity about the false or true Grail. I will suggest an intent to curse at God to be an allegory to distribute pick and shovel. All men and women are directed to dig onto finding at the other side of the world at a China. Read Ezekiel Chapter 5. At the end of siege to harm God, you are directed to take a razor, and to shave yourself bald. Burn the hair of your life one third in the center of the City. One third of the hair will to blow away in the wind; such as to adapt to angelic skills or language. One third of the hair will to be chased by sword. Chapter 10 Ezekiel reports again to see

visions of winged angels, and the temple of the Lord is left to be. The overthrow of the City of Jerusalem is interpreted to be a Wise Man; who is so able to live at a name or at home basis. Israel is translated to be a tribe of metaphors to the higher ruling principles to have been discovered. A series of photo are found of wolves; such as to consider series of art or photo to a theology to be word defying art. See the teeth to the creatures. Find their play and antics. The wife of Ezekiel is considered to be a symbol of the Old Temple. She is made into a meat stew, and will to die in a 9th year or Ezekiel Chapter 24. At a moment of time the love of his life is taken away; so to translate Ezekiel to be a basis of the product adaptation. His tears or responses are not recorded. He is directed to find shoes for himself and a turban. Much work is provided to the later Chapters. Salt water marshes provide life to many sort or creatures. A rise of water from beneath of house is unable to then be actually crossed in say years, and to follow a river onto a sunny sea. The Book closes to City of God portrayals, and you are directed to read Augustine in City of God or the Book of Revelations. They sort of provide idea of a sort of dark night and yet to find also a day or dawn. The peace or innocence from the City of God has been personally reported to me; although my volume is more written to be context of a measure of the mind. It is vain and format to series of art; while Ezekiel closes his book at a more implicit manner to consider the City of God to be God is there.
