

## Pamper Your Partner: Thirty Days to a Romantic Relationship

For many couples, finding time for romance can seem like a daunting proposition. The word romance conjures up overwhelming and elaborate scenarios involving reservations, champagne, maitres ds, and roses. In this book, Susan Hubbs gives loving couples an alternative to expensive and impractical romantic gestures. She lays out straightforward steps that guide readers through thirty days of tried and true demonstrations of love that appeal to men and women alike! Each chapter contains a romantic quote and an activity that can be completed in one day without extensive planning or outrageous cost. If any activity does require money, a Penny Saver is included, offering an alternative suggestion which requires absolutely no cash outlay! This book is a breakthrough because Susan Hubbs is not an acclaimed professor or a psychologist dispensing Ph.D. wisdom. She is, however, one half of a loving couple that places romance high on the list of relationship priorities. Couples discouraged by other books on romance which speak in psychological rhetoric will welcome Susans book with a smile and a huge sigh of relief--and then proceed down a thirty day path to the joy of romantic enlightenment!
