These interracial couples will make you wish you were still young and experimenting sexually! **Black Bimbo Drug Trial:** This black womans future all depends on one night. Her white husband is going to take control. Shes a chemist, and shes working on a particularly interesting project for the government -- all top secret, of course. The goal? Mind control. She wasnt the first person chosen for the job, but the last one ended up violently attacked in a trial gone wrong. If she manages to bring in a working drug, it could mean she is set for life. The threat of making a deadly mistake, however, pushes the deadline back again and again. One night, her husband tells her that hes solved it. Hes read her files, and he has the answer to the mind control drugs flaw. All he wants from her in exchange for the solution is one thing: He gets to be the first to test it, on her... Will she let her white husband control her mind? **Breeding the Black Witch:** How far will this beautiful African witch go to break her curse? A beautiful black witch must find her soul mate so that she can finally break the curse put on her. In order to be filled and bred, shes casting spells on any man that comes into her shop. These love spells are potent, and her victims are always seduced. When Jack wanders into her store of magic, she knows he will be the first man she will try to seduce. Hes handsome, and his body is muscular and masculine. A little bit of a love potion slipped into his drink has him wrapped around her finger in no time. Will he be the one to impregnate her?
