

## The Gospel in the Old Testament:

Old Testament, and the bringing of that teaching into its true relation to the Christian revelation as contained in the New Testament. Modern critical and scientific study is believed by many to have discredited the religious value of the Old Testament. Numbers of people who have but a vague and hearsay knowledge of the Higher Criticism think that its aim or, at any rate, its result has been to pull down and destroy rather than to build up. Even the Christian preacher, if, as too often is the case, he is untrained and unversed in modern Old Testament study, is apt to regard the Old Testament as an incubus rather than as a help to his teaching. He avoids it in his sermons; he is perplexed as to the sense in which divine inspiration can be claimed for it; sometimes he frankly confesses his desire to lay it aside altogether, and to start from the New Testament.
