

MAKING GENUINE EFFORTS

Reactive and active effort are explored in detail, with numerous clinical vignettes given to clarify ideas from a psychoanalytic perspective. Also discussed, in the context of making genuine efforts, are: 1) passivity; 2) self-deception; 3) self-initiated tasks; 4) awareness and assertiveness; 5) planning, fear of failure and of success; 6) sustaining conscious creative effort; and 7) magical expectations.
